Top Tips

The secret to success is practising little and often. Can you practise these Quick Recall Facts during a car journey? You don't need to practise them all at once: perhaps you could have a fact of the day. If you would like more ideas, please speak to your child's teacher.

Use practical resources – Your child has one carrot on their plate and you give them three more. Can they predict how many they will have now?

Make a poster – We use Numicon at school. Your child could make a poster showing the different ways of making 5.

Play games – You can play number bond pairs online at <http://www.iboard.co.uk/activity/Alien-Pairs-to-5-2316> and then see how many questions you can answer in just one minute.
